Profile Summary: -

Motivated MECM Administrator and Data Science student with hands-on experience in IT infrastructure, Azure Cloud, Citrix, and endpoint management. Skilled at solving complex technical problems, optimizing system performance, and automating processes to make enterprise environments more efficient. Solid foundation in Python, SQL, and cloud technologies, aiming to bridge IT operations with data-driven decision-making.

Work Experience: -

HCL TECHNOLOGIES LTD – Lucknow, India

MECM ADMINISTRATOR   OCT 2023 – Current

Key Roles and Responsibilities:

- Worked on on-premises-to-cloud migration of SCCM-managed devices to Intune, supporting organizational modernization initiatives.
- Monitoring system health, performing patch management, and preparing daily SCCM client reports.
- Configuring App Protection and Configuration Policies to strengthen endpoint security.
- Developing remediation scripts to resolve patching issues and improve endpoint compliance.
- Onboarding new applications into Intune to streamline deployment and enhance endpoint productivity.
- Implementing Windows Autopilot for pre-provisioned device deployments, simplifying user onboarding.
- Maintaining seamless access and performance in both On-Prem and Cloud Citrix environments.

HCL Training & Staffing Services Pvt. Ltd. – Lucknow, India.   OCT 2022 – OCT 2023

- The 1-year training and internship program is conducted by HCL Training and Staffing Services.
